

Five-Ingredient Romanian "Amandine" Cupcakes+Sweet Cream Frosting+Outrageous Orange Elixir

By Dylan Sabuco, Erin Fletter

Prep Time 20 / Cook Time 15 / Serves 4 - 6

Shopping List

- FRESH
- 2 bananas, as ripe as possible **** (see allergy subs below) ****
- 1 orange
- DAIRY
- 2 T butter **** (see allergy subs below) ****
- PANTRY
- 1 T cocoa powder **** (see allergy subs below) ****
- 2 tsp baking powder
- 3/4 C all-purpose flour **** (see allergy subs below) ****
- 1/2 C sunflower butter ******
- 1/2 C powdered sugar
- 1/4 tsp pure vanilla extract **** (see allergy subs below) ****
- 1/2 C powdered sugar, granulated sugar, or honey
- 1 12-oz can sparkling water, flavor is optional
- HAVE ON HAND
- 3 C water
- ice, optional

- paper cupcake liners

Fun-Da-Mentals Kitchen Skills

measure: to calculate the specific amount of an ingredient required using a measuring tool (like measuring cups or spoons).

whip: to beat food with a whisk or mixer to incorporate air and produce volume.

mix: to thoroughly combine two or more ingredients until uniform in texture.

slice: to cut into thin pieces using a sawing motion with your knife.

stir: to mix together two or more ingredients with a spoon or spatula, usually in a circle pattern, or figure eight, or in whatever direction you like!

juice: to extract or squeeze out the juice of a fruit or vegetable, like a lemon, orange, or carrot, often cutting open or peeling the fruit or veggie first to access its flesh.

zest: to scrape off the outer colored part of a citrus fruit's rind (skin or peel) using a metal tool with small sharp blades, such as a zester, microplane, or the small holes of a grater (avoid the "pith," the white, spongy lining of the rind that can be bitter).

Equipment

- Mixing bowl
- Dry measuring cups
- Measuring spoons
- Whisk
- Oven
- Muffin pan
- Paper cupcake liners
- Mixing bowls
- Potato masher or wooden spoon
- Toothpicks or knife to test for doneness
- Pitcher
- Zester (or grater with small zesting plate/side)
- Cutting board

- Kid-safe knife
- Citrus juicer (optional)
- Liquid measuring cup
- Wooden spoon

Ingredients

Sweet Cream Frosting

- 1/2 C powdered sugar
- 2 T butter, softened ******(for DAIRY ALLERGY substitute 2 T dairy-free/nut-free butter)******
- 1/4 tsp pure vanilla extract ******(for GLUTEN ALLERGY use certified gluten-free pure vanilla extract, not imitation vanilla flavor—check label)******
- 1/2 T orange juice (if making Outrageous Orange Elixir, use juice saved from its orange)

Five-Ingredient Romanian "Amandine" Cocoa Cupcakes

- 1 T cocoa powder ******(for CHOCOLATE ALLERGY sub 1 T carob powder)******
- 2 tsp baking powder
- 3/4 C all-purpose flour ******(for GLUTEN ALLERGY sub 3/4 C gluten-free/nut-free all-purpose flour)******
- 2 bananas, as ripe as possible ******(for BANANA ALLERGY sub 1 C sweetened applesauce OR 1 8-oz can crushed pineapple if no allergy)******
- 1/2 C sunflower butter ******

Outrageous Orange Elixir

- 1 orange
- 1/2 C powdered sugar, granulated sugar, or honey
- 3 C water
- 1 12-oz can sparkling water, flavor is optional
- ice, optional

Food Allergen Substitutions

Sweet Cream Frosting

Dairy: For 2 T butter, substitute 2 T dairy-free/nut-free butter.

Gluten/Wheat: Use certified gluten-free pure vanilla extract, not imitation vanilla flavor.

Five-Ingredient Romanian "Amandine" Cocoa Cupcakes

Chocolate: For 1 T cocoa powder, substitute 1 T carob powder.

Gluten/Wheat: For 3/4 C all-purpose flour, substitute 3/4 C gluten-free/nut-free all-purpose flour.

Banana: For 2 bananas, substitute 1 C sweetened applesauce OR 1 8-oz can crushed pineapple if no allergy is present.

Seed: For 1/2 C sunflower butter, substitute 1 stick or 1/2 C of butter or dairy-free/nut-free butter.

Outrageous Orange Elixir

Instructions

Sweet Cream Frosting

measure + add + whip

Measure and add **1/2 cup powdered sugar**, **2 tablespoons softened butter**, **1/4 teaspoon vanilla extract**, and **1/2 tablespoon orange juice** to a mixing bowl. Whip all the ingredients together until a smooth frosting forms. Top each cooled cupcake with a dollop of Sweet Cream Frosting!

Five-Ingredient Romanian "Amandine" Cocoa Cupcakes

intro

"Bună ziua" (BOON-ah ZEE-wah) or "Hello" in Romanian! "Amandine" describes a chocolatey Romanian cake often filled with chocolate mousse. The following recipe takes a simplified and healthier approach to the traditional recipe. You will replace a few things like butter, sugar, and eggs with bananas and sunflower seed butter. The texture will be more brownie-like than the traditional "amandine" recipe, but it will be just as tasty and way better for your body.

preheat

Preheat your oven to 375 F.

measure + mix

Measure **1 tablespoon cocoa powder**, **2 teaspoons baking powder**, and **3/4 cup flour** into a medium mixing bowl. Mix the ingredients with a whisk until well combined.

mash + stir

In a small mixing bowl, peel and mash **2 ripe bananas** with **1/2 cup sunflower butter**. Continue mashing until there are very few lumps. Stir this mixture into the dry ingredient mixture.

bake + cool

Pour the batter into lined muffin pan wells using a 1/4 measuring cup to scoop up the batter. Bake the cupcakes for 12 to 15 minutes or until they are fully baked and tested with a clean toothpick or knife. Cool for at least 5 minutes before adding frosting, or eat them plain for a tasty and healthy breakfast snack. "Poftă bună" (POHF-tah BOON-ah) or "Enjoy" (literally, "good appetite") in Romanian!

Outrageous Orange Elixir

zest + slice + juice

Zest **1 orange**. Then, slice the orange in half and squeeze all the orange juice into a pitcher (if making Sweet Cream Frosting, save 1/2 tablespoon juice for frosting). Add the zest to the pitcher as well.

measure + stir

Measure **1/2 cup of powdered sugar** and add it to the pitcher with the orange juice. Let everyone take a turn stirring until all the sugar is dissolved.

pour + serve

Pour in **3 cups water** and **1 can sparkling water**. Stir a few times and serve! You can pour this one into cups as is or add ice.

Featured Ingredient: Chocolate + Cocoa!

Hi! I'm Chocolate!

"Hello! Let me introduce myself! I can be dark brown, light brown, or even white. I'm sometimes bitter, sometimes a little sweet, and often very sweet. I add flavor and excitement to many other foods! Have you guessed yet? I'm Chocolate! You may be familiar with me from candy bars or chocolate sundaes, but I can liven up many other foods, too, including chili, butter, and milk!"

History

The cacao (kahKOW) tree is native to equatorial South America and the rainforests of Mesoamerica. It was first used 5,300 years ago by indigenous people in South America. Mesoamericans who lived in the rainforests of Mexico and Central America domesticated the tree about 1,500 years later. They drank chocolate as a bitter beverage—far from the sweet treat most of us are familiar with today.

The Mayan people of Central and South America used cocoa as currency and as medicine: it was very valuable, just like vanilla! In fact, it was so precious that they made counterfeit cocoa beans out of clay and avocado seeds!

The Aztec people are a nomadic tribe in Northern Mexico. When the Aztec empire began to expand, they demanded that the Mayan people pay tribute to them through gifts of cacao.

The Aztec people ruled until Spaniards arrived and conquered the land and its people. The Spanish

explorers took cacao beans back to Europe, where they experimented by adding cinnamon and sugar to sweeten it. For a long time, only aristocratic people enjoyed chocolate.

Princess Maria Theresa married Louis the 16th from France and gave him chocolate as a wedding present! Demand for chocolate soon grew very fast, and as a result, people were enslaved on plantations to grow cacao to meet the high demand.

In 1847, Joseph Fry invented the first chocolate bar. By 1907, Hershey was manufacturing millions of chocolate kisses each day.

Cacao trees grow best in the rainforest underneath the branches of taller trees. However, they won't bear fruit until they are at least three to five years old.

Most early Spanish sources refer to chocolate as "cacahuatl" (cah-cah-Hwat), which translates to "cacao water."

The word chocolate comes from a combination of a Mayan word for hot, "chocol," and an Aztec word for water, "atl."

How Chocolate is Made

All chocolate comes from the beans of the cacao tree. Cacao trees produce pods containing pulp-covered seeds. Before cacao is processed, it would be hard for most of us to recognize it as chocolate! This is because the pulp-covered seeds taste bitter and raw and look nothing like the chocolate products we see in stores.

The seeds go through a process called fermentation, and then they are dried and made into nibs before being turned into chocolate.

A cacao pod contains about 30 to 50 almond-sized seeds—enough to make about seven milk chocolate candy bars!

After roasting and grinding cocoa beans, chocolate liquor is left, which is about equal parts cocoa solids and cocoa butter. After the cocoa butter is mostly extracted, the result is dry cocoa solids. Cocoa powder is the powdered form. Natural cocoa is a light brown color and tastes bitter.

Dutch chemist Coenraad van Houten created the "Dutch process" method in the early 19th century to reduce the acidity in natural cocoa powder by treating the beans with alkaline salts. As a result, Dutch process cocoa is less bitter and has a dark brown color.

How to Enjoy Cocoa & Chocolate

You can add unsweetened cocoa to milk with sugar, honey, or stevia for a delicious and warming beverage. You can also add it to smoothies for a delicious chocolaty taste and an extra hit of magnesium and

polyphenols.

Chocolate comes in many forms: bars, kisses, chips, powder, shavings, puddings, syrups, and sauces. Unconventional chocolate flavor pairings: cardamom, lavender, wasabi, chili, chipotle, sea salt, lime, matcha, curry, ginger, mint, figs, fennel, sesame, parmesan, and Earl Grey tea. Seriously, what doesn't go well with chocolate?! Can you think of any other fun and delicious pairings?

Nutrition

Dark chocolate helps protect your heart, blood, and brain! To get the full health benefits of chocolate, choose at least 85% cocoa content or higher. The higher percentage makes the chocolate more bitter, but those bitter compounds, called polyphenols, are antioxidants that provide several health benefits. Many people prefer very dark chocolate!

Polyphenols help prevent heart disease by maintaining healthy blood pressure levels, keeping vessels flexible and allowing the blood in our body to flow easier (good circulation), and reducing inflammation. In addition, they help control blood sugar levels, lower cancer risk, and boost immunity. Polyphenols also promote good digestion.

Cocoa is a great source of magnesium. We need magnesium for good health! For strong bones, healthy teeth, and as a building block for proteins within the body.

Cocoa can protect our teeth?! Cacao contains antibacterial elements that fight tooth decay. However, this is true with unsweetened cocoa only, as most mass-produced chocolate has a lot of sugar. We know what sugar does to our teeth—it causes decay!

One study has shown that the smell of chocolate may actually relax you by increasing theta waves in the brain!
