

Strawberry Flummery + Whipped Cream + Oatmeal Lace Cookies + Strawberry Earl Grey Iced Tea

By Erin Fletter

Prep Time 37 / Cook Time 22 / Serves 4 - 6

Shopping List

FRESH

1 lemon

4 1/2 C fresh strawberries

DAIRY

1 C heavy whipping cream ****(see allergy subs below)****

1/4 C butter ****(see allergy subs below)****

PANTRY

3/4 C granulated sugar

1/2 tsp salt

2 T cornstarch (or arrowroot starch)

3/4 C light brown sugar

2 tsp pure vanilla extract ****(see allergy subs below)****

1/2 C oats ****(see allergy subs below)****

2 T all-purpose flour ****(see allergy subs below)****

1 to 2 decaf Earl Grey tea bags

HAVE ON HAND

3 3/4 C water

- 3 1/2 C ice

Fun-Da-Mentals Kitchen Skills

knife skills: Bear Claw (growl), Pinch, Plank, and Bridge (look out for trolls) and Rock and Saw.

dice: to cut foods into small pieces of equal size so that the food is cooked evenly or looks uniform and pleasant when used in the recipe.

pulse: to process just short of a purée in smooth, rhythmic bursts of power with a blender.

thicken: to make a liquid mixture thicker by adding a thickening agent, like flour, cornstarch, or arrowroot powder, or by reducing the amount of liquid through boiling.

measure: to calculate the specific amount of an ingredient required using a measuring tool (like measuring cups or spoons).

shake: to rapidly and vigorously move a covered container filled with food up and down and side to side to combine ingredients and create a different consistency, such as shaking whipped cream to make butter.

pulse: to process just short of a purée in smooth, rhythmic bursts of power with a blender.

steep: to soak a food, like tea, in water or other liquid so as to bring out its flavor.

Equipment

- Large saucepan
- Cutting board
- Kid-safe knife
- Dry measuring cups
- Liquid measuring cup
- Small bowl
- Citrus juicer (optional)
- Measuring spoons
- Plastic jar or container + tight-fitting lid
- Oven
- Baking sheet
- Parchment paper
- Small mixing bowl

- Medium mixing bowl
- Heat-resistant spatula
- Plate (for cookies to cool)
- Blender (or food processor)

Ingredients

Strawberry Flummery

- 4 C fresh strawberries
- 1/2 C granulated sugar
- 1 pinch salt
- 1/2 C water
- 1/2 lemon, juiced
- 2 T cornstarch (or arrowroot starch)
- 3 T cold water

Vanilla Whipped Cream

- 3/4 C heavy whipping cream ******(for DAIRY ALLERGY sub 3/4 C coconut cream (not coconut milk) OR dairy-free heavy whipping cream OR omit recipe)******
- 1 tsp pure vanilla extract ******(for CELIAC/GLUTEN ALLERGY use gluten-free pure vanilla extract, not imitation vanilla flavor—check label)******
- 1 T sugar
- 1 pinch salt

Oatmeal Lace Cookies

- 1/4 C butter, softened ******(for DAIRY ALLERGY sub 1/4 C dairy-free/nut-free butter)******
- 1/4 C light brown sugar, packed
- 1 tsp pure vanilla extract ******(for CELIAC/GLUTEN ALLERGY use gluten-free pure vanilla extract, not imitation vanilla flavor—check label)******
- 1 pinch salt
- 1/2 C oats ******(for CELIAC use certified gluten-free/nut-free oats)******
- 2 T all-purpose flour ******(for CELIAC/GLUTEN ALLERGY sub 2 T gluten-free/nut-free all-purpose flour)******

Strawberry Earl Grey Iced Tea

- 1 to 2 decaf Earl Grey tea bags
- 3 C warm water
- 1/2 C strawberries
- 1 T granulated sugar
- 1/2 T brown sugar
- 1/2 lemon, juiced
- 3 C ice

Food Allergen Substitutions

Strawberry Flummery

Vanilla Whipped Cream

Dairy: For 3/4 C heavy whipping cream, substitute 3/4 C coconut cream (not coconut milk) OR dairy-free heavy whipping cream OR omit recipe.

Celiac/Gluten/Wheat: Use gluten-free pure vanilla extract, not imitation vanilla flavor.

Oatmeal Lace Cookies

Dairy: For 1/4 C butter, substitute 1/4 C dairy-free/nut-free butter.

Celiac/Gluten/Wheat: Use gluten-free pure vanilla extract, not imitation vanilla flavor. Use certified gluten-free/nut-free oats. For 2 T all-purpose flour, substitute 2 T gluten-free/nut-free all-purpose flour.

Strawberry Earl Grey Iced Tea

Instructions

Strawberry Flummery

dice + measure + combine

Dice **4 cups of fresh strawberries** into small pieces (rinse and remove stems and leaves first). Measure **1/2 cup sugar**, **1 pinch of salt**, and **1/2 cup water** and combine in a large saucepan on your stovetop.

simmer + stir + boil

Put your saucepan on low heat and simmer the berry mixture, frequently stirring, until it breaks down and becomes liquid. Then turn your heat up to medium-high and bring to a boil. Keep an eye out so that the strawberries don't burn!

squeeze + mix

Squeeze the juice of **1/2 lemon** and set it to the side. Measure **2 tablespoons of cornstarch** and mix together with **3 tablespoons of cold water** in a small bowl.

thicken + stir

Add the cornstarch and water mixture to the boiling strawberries and let the mixture thicken. Then stir in the lemon juice and simmer for 1 more minute.

transfer + cool

Transfer the flummery away from the heat and let it cool while you make the **Vanilla Whipped Cream!**

Vanilla Whipped Cream

measure + fill

Measure and fill a clean plastic jar or container with **3/4 cup heavy whipping cream**, **1 tablespoon sugar**, **1 teaspoon vanilla extract**, and **1 pinch of salt**. Seal tightly with the lid.

shake + shake + shake

Take turns shaking the jar for about 5 minutes until the contents thicken up and whipped cream begins to form. Listen for a "swoosh" sound—this is when the consistency of the whipped cream changes and will coat the sides of the jar. Open the jar and check to make sure it's thick, and be careful not to overshake, or you'll make butter instead!

Oatmeal Lace Cookies

preheat + measure + mix

Preheat your oven to 375 F and line a baking sheet with parchment paper. In a small bowl, measure and mix together **1/4 cup softened butter**, **1/4 cup light brown sugar**, **1 teaspoon vanilla extract**, and **1 pinch of salt**. In another bowl, combine **1/2 cup oats** and **2 tablespoons flour** and then add in the butter-sugar mixture. Mix everything together well!

drop + spread + bake

Drop tablespoons of batter about 2 inches apart on your lined baking sheets (leaving room for them to spread). Bake for 5 to 7 minutes, closely watching so they don't burn. Cool the cookies on a plate, and they will get crispy as they cool!

Strawberry Earl Grey Iced Tea

plop + steep

Carefully plop **1 to 2 decaf Earl Grey tea bags** into **3 cups of warm water**. Let the tea steep for 30 minutes.

pulse + combine + serve

Pulse **1/2 cup of strawberries** with a blender or food processor until they are liquified. Then, remove the tea bags you've been steeping and add the strawberries, **1 tablespoon sugar**, **1/2 tablespoon brown sugar**, and the juice of **1/2 lemon**. Blend again until everything is well combined. Taste your tea and add more sugar, if needed! Divide into cups and serve over **ice**.

Featured Ingredient: Strawberry!

Hi! I'm Strawberry!

"Hello! I want to introduce myself. I'm Strawberry—and I have my very own month—May! I'm great in desserts, breakfast foods, snacks, salads, and fragrances. I like to be a part of picnics and holiday celebrations. So combine me with blueberries and bananas (or whipped cream, vanilla pudding, or white cake) for a red, white, and blue dessert for Independence Day in the United States or Bastille Day in France."

History

The garden strawberry as we know it was first bred and cultivated in France in the 1750s. It was a cross between a Virginian strawberry and a Chilean strawberry.

The ancient Romans believed strawberries had medicinal powers. So they used them to treat everything from depression to fainting to fever, kidney stones, bad breath, and sore throats.

Native Americans made cornbread with crushed strawberries and cornmeal; this is how strawberries were introduced to Colonists and served as an inspiration for the invention of strawberry shortcake.

In some parts of Europe, people once believed elves could control how much milk cows produced and that the elves loved strawberries. So farmers tied baskets of strawberries to their cows' horns as an offering to the elves.

California produces about 80 percent of the strawberries in the United States. Strawberries have been grown in California since the early 1900s.

Americans eat an average of three and one-half pounds of fresh strawberries per year. In one study, more than half of seven to nine-year-olds picked strawberries as their favorite fruit. They're nature's candy!

Anatomy

The strawberry isn't a true berry but is called an accessory fruit. Strawberries are the only fruit with seeds

outside their skin, about 200 on each berry. And, to be super technical, each seed on a strawberry is considered by botanists to be its own separate fruit!

The strawberry plant is a perennial and can last for a few years, producing fruit each year.

How to Pick, Buy, & Eat

Some varieties of strawberries are easier to harvest than others. To pick a strawberry from its plant, grasp the stem just above the berry between your pointer finger and thumbnail and pull with a slight twisting motion.

To store fresh strawberries, place them whole and unwashed in one layer in a plastic or glass storage container and put them in the refrigerator. Wait to clean them until you are ready to eat them, as rinsing them quickens their spoiling.

Strawberries can be pickled! Especially when you pick them green or unripe. If your berries are overripe, make jam!

Strawberries can be puréed into smoothies or milkshakes and baked into tarts, pies, cakes, and tortes. Or, roast them and serve over ice cream and berries. You can also dehydrate and mix them into granola or purée raw strawberries and freeze them into yogurt pops. Dip them in chocolate or drizzle them with cream. Strawberries are incredibly versatile—the fruit we wait all year to enjoy once summer weather hits!

Nutrition

Strawberries are a HUGE source of vitamin C, especially when eaten raw! One cup of strawberries contains 113 percent of our daily recommended value. Vitamin C is excellent for the heart, bones, and teeth. When we cut ourselves or break a bone, vitamin C comes to the rescue to help repair our tissues.

Strawberries contain natural fruit sugar, called fructose. However, fructose is better than table sugar (white sugar) because it comes packaged with other vitamins, nutrients, and fiber from the rest of the fruit. Plus, the fiber in fruit helps slow down the effects of sugar in our blood.
